Rodeo

Drayton Valley's 14th annual rodeo got off to a good start on Friday morning, promptly at 12:30, with a parade of over 30 floats, headed by Rodeo Hostess Sherry Scott on her horse Dyna, followed by the official car with Mayor Adrian Nelson, Lion President Don McKenzie, his two daughters, Heather, and Deeded Lion Chuck Dion.

The Oldtimers car held Mr. and Mrs. Peter Anderson, Mr. Roy Fickett, Mrs. Johnson Sr., and Mr. Halar Ramsted. Items and banners for the Lions Club, sponsors of the rodeo, were Lions Lt. Krauter, John Moody and John Shewchuk. The band which supplied the music for the parade march was the Jasper Place Lions Club youth band, with 17 band members and 15 rickshaws, the band was under the direction of Lion Joe Sibben, of Jasper Place.

First place winner in the floats section was "Pembina Pipe Line" entry, which featured "Pembina Pipe Line, Ltd." written out in flowers on the sides, a large Rodeo steersman made of flowers, in the rear, and the Pembina emblem. Second prize winner was "Bessie's Towing and Taxi Service", with an art of flowers and two children riding hobby horses. Third prize went to the big Boy Scout float, mounted on a Tower Trucking lowboy. In this float the Scouts had set up camp, and showed other phases of Scouting activity, such as First Aid, etc. Judges were Earl Thompson, John McKenzie and Don Harold. In the decorated bicycle class Gale Robertson won first, with Judy Zucht second and Frank Olson third.

All the float entries showed the evidence of much time and effort being spent on them. Other entries among the floats were, Alberta Government Telephones; B.J. Service; Imperial Lumber; McCullough Pool; Olliviers; Drayton Valley Community Library; North Western Utility; Drayton Valley Construction; Flint Rig; Schlumberger; Pembina Drug and Valley Drug; Teen Town, with "Queen" Norma Oldberg and "King" Bob Disney on their thrones; National Supply; Calgary Power, followed by Pacific Pump and Hume and "Babe" on a combined float, with power to operate a small scale pumping unit being supplied by the Calgary Power float; Sakinco Fracturing, complete with the Sakinco Orchestra, the "Sakinco"; Macgillivray Construction Drayton Valley Fire Brigade Unit, with fireman Floyd Allshorn driving; Kooli Oil, Matlock and Sons, Ltd., Drayton Valley Municipal Hospital Auxiliary; Drayton Valley Hot Oil; Electrical Contracting, Collier Ltd., (with a sign which said, "This vehicle powered by propane"); J.B. Trucking and Brown and Root.

Taking part in the parade also was Russ Greenwood, of Sundre, with his team of Mexican buffalo, which he had trained to draw his ox-cart. The show is sponsored by Calgary Rodeo, the show has been presented in the Calgary Stampede for the last two years and in the

RODEO (continued)

Edmonton Exhibition. Also in the parade were a couple of CHD cars, with "Diggers" Dave Heston in the first and "Old Dad" Taylor in the second. A large number of mounted riders also took part in the parade, which was larger than any previous year.

Friday had been designated a Civic Holiday by the Council of the Town of Drayton Valley, and before the rodeo opening time of 2:30 p.m. the crowds started to flock to the rodeo grounds where a midway and other concessions had been set up. Several thousand persons, including large numbers of children, saw the rodeo during the two days it was staged here. The rodeo featured top riders and top rodeo stock. It was announced that two of the Brumby bulls have been selected to a World's Rodeo Championship event to be held in the U.S. later this year. Rodeo Stock was supplied by Harry Veld, the rodeo is approved by the C.F.A., an organization of rodeo performers.

A new and very enjoyable feature of this year's rodeo was the Cowgirl Barrel Race, which had five entries, one of them a local girl, Sherry Scott. Among the riders were three local entrants, Cliff Vandergift, Gen. Rowan and Gerry Polton. The cutting horse competition was enjoyed again this year, with eight entries in this event.

Top money winners for the two days were Bob Brown in the Bareback riding, Alex Lays, in calf roping, Ken, in saddle bronc riding, Brian Butterfield in the Steer Wrestling events, in the wild horse race Cliff Vandergift, Cody Lorrin and John Cummings tied for top money. Old Garstod won top money and the Matlock Trophy in Rodeo Bull riding. In the Girls Barrel Race Viola Thomas, of Calgary, was top winner.

The two-day event was highlighted by three evenings of dancing, with a pre-rodeo dance on Thursday night and one on each of the two rodeo nights. Coby Hanes and his orchestra attracted large crowds of dancers to the large new dance-floor in the rink. On Friday night judging of the bands took place, with the bands orchestra sitting as judges. Twenty-six band contest entries showed up for the occasion. Included were: Art Klotz, Stan Luchak, Don Disney, Kent Williamson, Jack McLean, Don Compton, Bill Greer, Chuck Dion, Bob MacMillan, Len Crozman, Charlie Twistle, Bill Bromley, John Moody, John Shewchuk, Don Hockley, Ned Martell, Clarence Hillier, Lorne Jilka, Charlie Schenke, R. H. Harnan, Mike "on" Ken Belling, Ralph Harnan, John Shanley, Fred Mann and Oregenton MacMillan. Prizes were awarded as follows: Fullest Award, Chuck Dion, with Ned Martell as a runner-up; Oddest Style, John Shanley, 1st, with Fred Mann in second place; Best Mountaineer and Cowboy, 1st, Clarence Hillier, with Charlie Schenke 2nd. Best Amateur Band, John Shewchuk and Sam Crozman, and Nextest: Art. Klotz.

FOOD FOR THOUGHT

By Darius, Eding.

In my article of April 2nd, I went on record as believing that smart also or drunk drivers lack mature average intelligence. I must apologize for that understatement; I flattered them! I should have been honest enough to say they lack any intelligence at all! So for you characters who are so "all-fired" important that you can't drive within the legal speed laws and for those of you who are so clever at driving a car after you've been drinking, I would like to tell you that your party days are about over. I'm writing this article at the request of a group of irate citizens and our town police officers, and we are all fed up with your kind and we intend to do something about it.

You obviously do not have any respect for yourself so why should you expect us to feel any differently. Drayton Valley is a community of over 3,500 people, many of whom are children. Or are you so engrossed in your own cleverness that you hadn't noticed? What you do with your own life is your own business, but what you do with our lives and our children's lives is our business. We have not given you permission to kill us, your own, in the Edmonton Journal, it was published that three different drivers from Drayton Valley, on separate days, had been arrested for "impaired driving", and the Judge threw the book at them; stiff fines and suspended licenses. That is quite a scary record for one village to have on the police agenda of a city. Impaired Driving is a polite way to say, "drunk while driving" and we might as well face it, impaired or drunk is a dangerous situation.

Now that the streets have been graded and nicely gravelled in the residential area it's amazing how many race track drivers have appeared. In a sea of dust go to save perhaps 30 to 40 seconds in the 2 or 3 blocks they will travel before they park. The billows of dust is aggravating enough to the housewife who has just hung out her wash or dusted her house and it is a real worry to our merchants who are trying to keep their stores and merchandise halfway clean. Oh, I forgot, didn't I? I'm addressing this to you clever and important people who live in this world none and do not have to consider the other guy, his comfort or his safety! Do me a favour, will you? Go look at yourself in the mirror. Are you really as brilliant and handsome to look at as you think you are?

That face, my friend, is the same face that will look back at you from the mirror whether you have killed someone or not. The only difference will be that if you have killed someone your expression may grow more sagged and you won't even look so clever and handsome to yourself. Let the life will be gone and you will have taken it. I don't envy you as I wouldn't even want to look your face in the mirror now, much less if it had remorse and regret on it! But my appeal to your sense of decency or honor? You have none or you wouldn't be driving like a maniac. You've been warned, you've been told and you have been treated with some dignity. Think hard! If you are still rolling around town, sliding around corners and driving while drunk. Let's see if this works! Those citizens in the town, who have had just about all of your smart alecness they can bear, have decided to do their best to help the town officers by reporting you, your car license number or by making a citizens' arrest if necessary. They aren't playing ping pong this time, my friend, it's for keeps! Don't depend on your reputation seeing you through. You have no reputation as far as the citizens are concerned and I don't care if you are "the Bull of the Woods" himself.

(Next column)

Food For Thought, (continued)

The town officers will know now that they have been "beating". No more of this business of being easy on you! You are childishly clever and the police car looks up head and shoulders over other cars so you can see them coming and get out of sight, but don't depend on that either. They just might decide to take them no longer need a patrol car with its padded cells; and an unidentified car that you can't spot might be your friend! Frankly, it is my opinion that our police need a car rather than a wagon. That sort of thing is only used in a city when enough drunks, who can neither walk nor drive, have been rounded up and then they haul them off via the Patrol wagon. There is one nice system used in some cities, however, and it's too bad we do not have the facilities for it; traffic violators are taken to the morgue to witness what is left from a similar violation. City morgues are grim, cold and well populated! You should see some of the brave, daredevil drivers when they are made to look at the mangled results of a speed or drinking accident. What happens to our big, brave, "devil-may-care" hero then? He becomes a sick, frightened, shivering, weeping creature who begs for mercy and who hasn't the nerve to look at more. He often has to be carried out of the morgue, poor, strong, weakling!

In the past our citizens have held back because of various reasons, perhaps they know you or perhaps they are in business and have felt that to prefer charges would not be a good idea. But that feeling has been shattered by the alarming increase of traffic violations that are serious. As one businessman said to me, while he looked down at his little 2 1/2 year old daughter, "all the business in the world wouldn't mean anything to me if I lost her". That man had been nearly run down himself right by his own home and several of us neighbors witnessed it. Not only that, the same driver made several trips around the block going at top speed and nearly turning himself over on one corner. And when we say cars we mean to include trucks too. Truck drivers are supposed to have a reputation for safe driving but some of the drivers out here think they are in an airplane so they too can expect to be reported.

For you citizens who would like to get on the band wagon but have not enlisted as yet, just keep a pencil and paper handy to jot down the car license numbers and the cars' description, then call the police and they will try to rid the roads of the Rover Boys! And to you folks who normally drive safely and safely just remember to cool off a bit before getting into your car. A mad driver is a dangerous one so don't drive if you are upset or angry. We need all the sensible drivers we can get!

If you are looking for a way to glorify spinach and if you like soup then here is a recipe that should do the trick. Even people who do not like spinach seem to think it's alright fixed this way. It's sturdy, nourishing and filling so I often use it for a main dish, having just the soup, crockers, and perhaps a jellied salad.

CREAMED SPINACH SOUP.

2 tablespoons of butter melted in double boiler; add a little salt and 2 tablespoons of flour; 2 cups of milk and all the juice from a can of spinach. Add the spinach pulp that has been put through a sieve or strainer. Add 2 tablespoons of grated onions and cook 10 minutes in the double boiler. Place a heaping tablespoon of whipped cream in the center of each portion.

"He jests at scars who never felt a wound" (Shakespeare)

DRAYTON VALLEY HIGHLIGHTS.

BY: Edith Deby.

Mrs. and Mr. Art Danaro, of Merrickville, Ontario, arrived in Drayton Valley on Wednesday. Art is taking over the management of Molnar's Plumbing & Appliance. The Danaros are well acquainted here since they lived in Drayton Valley for two years at the beginning of the oil boom. Mrs. Danaro and Mrs. Charles Johnson are sisters.

Mrs. N. MacGregor and three girls; Marjorie, Mary and Grace of Chilliwack, B.C. were the guests of Mrs. MacGregor's sister, Mrs. Walter Krause last week.

Miss Ellen Landers resigned her position at the Pending News Advertiser at the end of June and plans to attend Red Deer Composite High School next term. Her place at the Advertiser has been filled by Miss Bernice Smith of Edmonton.

The Reverend Millard Kirkpatrick flew in from the Hawaiian Islands and was the guest of Mr. and Mrs. Arthur Playford this week. Rev. Kirkpatrick will be in Canada on a lecture tour for some weeks.

The W. I. would like to take this opportunity to thank Mr. Low, Mrs. Peck, Mr. Beckett, Eleanor Chipchase and all those people who so kindly helped with our entry for the Lion's Rodeo Parade.

Mr. and Mrs. Omand Ramsted, from North Dakota, were the guests of Halmor Ramsted recently. Also visiting in Drayton Valley was Mr. Ramsted's sister and her husband, Mr. and Mrs. Hellyer, from Calgary. Both are former homesteaders in Drayton Valley area; The Omand Ramsted's homesteaded on the farm now occupied by Bill Hasty; the Hellyers homesteaded just west of Drayton Valley, on the place now owned by Boydon Orchynshyn.

BRIDGE BEING BUILT OVER BRAZEAU.

Work has been started on a temporary bridge over the Brazeau River near the site of the dam. Steel is being brought in this week for the bridge. A Camp with cookshack and bunkhouse has been built on the site to take care of a few men who are now engaged in clearing the campsites. Preliminary work is being done by Poole Construction Co. It is not known at this time whether Poole will get the contract for the whole job, but indications are that they will.

Apparently there will be no clearing of the 37 sections which will have to be cleared for the water reservoir for a year or so. The reservoir will contain some 200,000 acre feet of water.

A 12 mile long canal below the dam will convey water to the power house on the Brazeau River about 6 miles west of the junction with the North Saskatchewan. Other developments which will highlight the huge dam are: a pumping station at the main dam to pump water from the reservoir to the canal; a concrete spillway adjacent to the pumping station; a power house that will contain initially a 200,000 horsepower generating unit. It is expected that the work on the dam and power station will take about four years to complete, and it is expected that the plant's first unit will provide some power in the late autumn of 1963. As the reservoir would not have filled completely by the fall of 1963, there would only be a limited amount of water available to increase the flow of the North Saskatchewan River during the winter of 1963-64. Full reservoir should be available the following winter of 1964-65.

Surveyors are at work laying out a road from Lodgepole to the dam site, at a later date it is expected that a road will go straight south from Lodgepole to the power house site on a permanent bridge and continue south on the west side of the Saskatchewan to the crossing at Rocky Mountain House. Portions of the road are already surveyed, on the south side of the Brazeau and are presently in use as forestry roads.

Calgary Power Ltd. had not intended to develop the Big Bend site on the Brazeau until the demand for power had grown sufficiently to justify its initial high cost and the large peak power potential. Peak power could be economically obtained, the company stated, for example, by developing the Glenbow and Badger sites on the Bow River. However, the company has decided to go ahead with the Brazeau project for the following reasons:

1. The Provincial Government considers that a reservoir on the North Saskatchewan to catch spring and summer runoff will assist industry and relieve pollution on the river if the storage water is discharged during the low winter flow period.
2. As the company had carried out extensive preliminary studies at the Big Bend site with the view to eventually developing it as a hydro power site for peak power loads and as the Brazeau represents some 25% of the flow of the North Saskatchewan at Edmonton, the Brazeau River development appears to be the best way to cope with the need for a larger supply of water for industry and for the pollution problem. The company, (despite a high capital outlay which was not anticipated) is undertaking to proceed with its plans now rather than at a later date since it would seem to be in the best interests of the Province to do so.
3. As the power from the plant would be for peak loads and as peak loads in these latitudes occur during the winter months, the water stored in the reservoir could be used for the generation of power and simultaneously to augment approximately five times the natural winter flow of the North Saskatchewan River through Edmonton and downstream to the city.

DEVON LION WINNERS.

The fibre glass boat, complete with trailer, motor and all accessories which was given as a door prize by the Lions Club at midnight on Saturday, August 1st, is the huge dam built in the curling rink. Winner of the boat was Harold Sauls, of Devon.

POWER

FROM ALBERTA'S
"UNKNOWN COUNTRY"!

New multi-million dollar, Brazeau River Project . . . another forward step in Calgary Power's long-range planning to maintain LOW-COST POWER

CALGARY POWER LTD. has a multi-million dollar belief in Alberta's progress! While serving the province today, the company plans and builds ahead to maintain efficient, low-cost service tomorrow.

Latest news of Calgary Power's long-range expansion program comes from one of the most isolated regions of Alberta — the lower reaches of the Brazeau River. In this virtually unknown area of dense forest and swamps, work is under way on a new power project that will benefit, in particular, residential consumers.

When completed in 1964 this important hydro project will complement the 144,000-KW base-load thermal plant at Wabamun. The new powerhouse and dam (lowering two hundred and thirty feet above the bedrock of the river) are designed for substantial peak-load power. From the "big head" of the Brazeau will flow low-cost dependable power for the "busy periods" when it's needed most!

Watch for further reports on the Brazeau Development — one more example of constant forward-planning at Calgary Power Ltd.

SOMETHING NEW HAS HAPPENED TO GAS RANGES!

THE BURNER-WITH-A-BRAIN* regulates flame automatically, just watches thermostatically. Food just can't burn!

AUTOMATIC MEAT THERMOMETER turns oven off automatically when roast is done the way you want it.

BUILT-IN ROTISSEIRE turns automatically. Brings the full and flavor of outdoor cooking right indoors.

AUTOMATIC OVEN cooks whole meals by itself. Clock control turns oven on - and off - at proper times.

Something new and wonderful has happened to today's "top of the line" gas ranges. You're not only cooking with gas* but getting the convenience of new automatic features that add joy to cooking. See your gas appliance dealer now... learn why these all-new ranges give you "top of the line" results!

* Your perfect cooking partner
